FRENCH DEFEAT THE BULGARIANS

London, Oct. 29, 10:46 p. m.—A dispatch to the Exchange Telegraph company from Athens says:
"It is learned from a good source that the French after a three days' fight have occupied Strumitza and advanced 32 kilometers (about 20 miles) into Bulgarian territory. The Bulgarians lost heavily."

London, Oct. 29, 9:40 p. m.—The Germans with their Austrian and Bulgarian allies are still making an attempt to cut off the retreat of the main Serbian army, which is offering such spirited resistance to the invaders. While Field Marshal von Mackensen's force advances slowly, the Austrians have crossed the western border of Serbia south of Vizegrad and are moving eastward, and the Bulgarians are marching westward on a wide front from Piro, which lies southeast of Nish, to Zajevar, to the northeast of Nish.

It is of course a long way across the country is difficult to traverse, but the Serbians are bound to defend it as long as possible, as their great arsenal at Kraguevatz is situated in this area, and they will doubtless hold on with the hope of making an eventual retirement in the mountains along the Montenegrin frontier and in that country.

Montenegrins Held Off Austrians.
To forestall this the Austrians also are attacking in Montenegro, but have made little progress, as the Montenegrins under their veteran fighting king have had a long time to prepare for just such an event, and thus far have beaten off all attempts to throw them back. In fact, the Montenegrins hold some strong positions in Austrian territory, out of which they will have to be driven before their own country is invaded.

There is no change in the southern area of Serbia so far as known. The report that Uscup has been recaptured is not confirmed. The French, however, claim to have cleared the Bulgarians out of the Velos district. This, if true, would render Uscup an unsafe place for the invaders, in the opinion of military men.

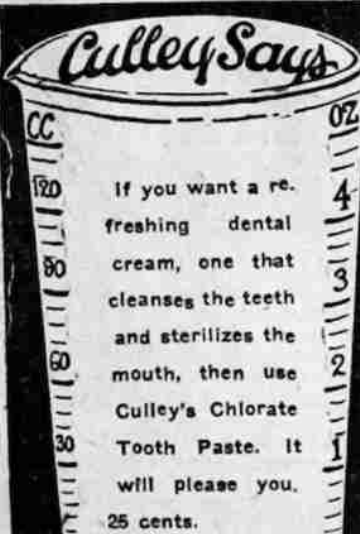

In what other way Serbia is to be assisted has not yet been disclosed. Some British troops are co-operating with the French soldiers from the south and others are on the way.

Under-secretary of state for subsistence—Joseph Thierry.
Under-secretary of state for sanitary service—Justin Godart.
Under-secretary of state for aviation—Rene Bessard.
Under-secretary of state for marine—Louis Nall.

Under-secretary for fine arts—Albert Dalimier.
The under-secretaries of the ministries of the interior and foreign affairs were not made public.

Coalition Cabinet.
A new French cabinet, headed by Aristide Briand as premier and minister of foreign affairs, came into existence tonight.
This is the first time in the history of the French republic that there is a coalition ministry of all the opposing parties and factions. It follows closely on the recent innovation of forming a British coalition cabinet of Conservatives and Liberals.

The action taken today in forming the cabinet, was the culmination of a deep popular sentiment that at the supreme crisis of the war party division should give way to united action by all the parties in common support of the government. As the result of the cabinet of Rene Viviani being representative of only a few political groups, the ministers presented their collective resignations, and President Poincare immediately charged Aristide Briand with the formation of a new organization combining all elements.

Remarkable Personnel.
The resulting coalition is remarkable in personnel, including such venerable figures as Charles de Procy, who was one of Gambetta's aides in the upheaval in 1870; Jules Meline, a former premier who instituted the protective system of France, and Leon Bourgeois, who is known as "the grand old man of the Radical party," which has the largest membership in parliament.

The modern element is represented by conspicuous leaders of all the political groups of the country. Thus the new coalition brings together France's elder and younger statesmen and in personnel represents all the history of modern France since the fall of Napoleon III. The cabinet is also favored by having the popular military leader, General Gallieni, as the head of the war office, and Rear Admiral La Caze as head of the ministry of marine, both of them replacing civilians.

OUTLAWS ARE TO BE HUNTED DOWN

Brownsville, Tex., Oct. 29.—A new attack by Mexican bandits on a patrol camp of United States soldiers and the reported killing of fifteen bandits in a battle with Carranza soldiers acting under orders of First Chief Venustiano Carranza to clear the border of outlaws, were developments today in the border situation.
Details of the reported fight on Mexican soil, which was said to have occurred fifty-five miles west of Matamoros, still were lacking tonight, but color was added to the story by the dispatch of 250 soldiers up the Rio Grande by General Eugenio Lopez, commander of the garrison at Matamoros. It was understood they were to prosecute the search for outlaws who have been harassing the Texas border counties by incursions from their hiding places across the Rio Grande.

Outlaws Flee.
First reports of the fight between the bandits and the Mexican soldiers came from Reynosa, which repeatedly has been a source of reliable news concerning bandit activities. After seeing fifteen of their number killed, the outlaws were said to have fled, pursued by the government troops. There was no official confirmation.

The Mexican bandits, who attacked a patrol of twenty United States infantrymen at Capote ranch early today, charged the camp from three directions. The soldiers were in trenches and opened fire on the Mexicans at fifty yards. The firing continued for perhaps ten minutes, when the Mexicans retreated in confusion. The Mexican bandits, three miles away, and escaped.

REVIVAL IN COPPER MINING IN NEVADA

Salt Lake, Oct. 30.—The mining of copper is showing greater activity at the present time throughout the various camps in Nevada that produce that metal than at any time in years, according to Frank M. Manson, general manager of the Utah Ore Smelting company, who has returned to Salt Lake from Reno. The recent rise in the price of lead has also stimulated the mining of that metal in the various camps, and the entire mining industry is showing greater activity.

Discussing the conditions at Goldfield and Tonopah yesterday, Mr. Manson said that among the many mining operators it was the consensus of opinion that the large amount of development work being carried on in both those camps would result in many new producers being brought to the front in the near future. The recent strike on the Simerone property in the Goldfield district is an example of what may be expected in the near future in numerous other properties where campaigns of prospecting are being pushed steadily ahead.

The Jumbo Extension property still continues to ship about 100 tons of ore per day and reports from that property are to the effect that the ore bodies are responding to the development work and that the ore bodies are improving with development. Though very little has been said by the officials of the company, it is reported in Tonopah that the strike made recently on the Halifax-Tonopah is one of considerable importance. Throughout the Tonopah district the various operators are also engaged in campaigns of development work that are beginning to bring new ore bodies to light.
Operators throughout the state take an optimistic view of the future of the industry, according to Mr. Manson. A heavy tonnage is being mined at the Rochester camp and new ore bodies are being developed as the various companies reach greater depth.

IDAHO MAN SHOTS WIFE AND FOUR RELATIVES

Boise, Idaho, Oct. 29.—William Cameron, mail carrier between Picabo and Carey, Idaho, shot and killed his wife's parents, Mr. and Mrs. John Adamson; his brother-in-law, James Adamson; his little daughter, aged 18 months, and his wife, and finished his work by shooting himself in the head at Carey tonight. Cameron was still alive at last reports, but there were no prospects for his recovery. All of his victims were shot in the head, and all died instantly.

Cameron, whose wife was suing him for divorce, went to the John Adamson home in search of her. He entered the kitchen door with a revolver in his hand. John Adamson, who had Cameron's baby girl in his arms, started to disarm Cameron, and was shot in the head and instantly killed. Cameron then pursued the others and shot them all down, with the exception of Adamson's unmarried daughter, Edith, and Cameron's three other children, who escaped.

The body of Mrs. Cameron was found shortly before midnight in an outhouse. She, like Cameron's other victims, had been shot through the head and instantly killed. Beside her lay Cameron himself with a bullet wound in his head, fatally wounded. The three elder children of the Camerons and Edith Adamson, all of whom fled with Mrs. Cameron when the shooting began, were found uninjured.

Cameron was recently arrested for an attack on his wife and given a jail sentence. Through the influence of friends he was released in a short time, and had been brooding over his domestic troubles since.

CANADA TO HAVE 250,000 SOLDIERS

Ottawa, Ont., Oct. 29.—Canada is going to put a quarter of a million men in the field. This decision was officially reached by the cabinet council today and announced by the premier, Sir Robert L. Borden, tonight. It is Canada's response to the call for more men issued by the king and means an enlistment of 100,000 extra soldiers.

While a total of 173,000 men have enrolled, the number actually authorized is only 150,000, so that about 15,000 of the extra 100,000 decided upon have already joined the colors, not counting the garrisons in Bermuda and St. Lucia, in the West Indies, and the men on guard and outpost duty in Canada numbering 8000. The extra forces will be nearly all infantry.

PEACE RUMORS DUE TO GERMANS

London, Oct. 29, 5:57 p. m.—Confessing that he had no information which led him to feel certain that current reports regarding peace overtures are true, Lord Sydenham thinks that they are not at all improbable.
"I should say," he says in an interview in the Pall Mall Gazette, "the overtures were mainly inspired by the now certain impossibility of German success in the west and the growing difficulties of the misconceived desire to advance into Russia. From first to last, the Germans have not won a great military success, and although every effort has been made to maintain confidence of the ultimate result in the minds of the German people and of neutrals, there must be many who realize that the prospects of ultimate victory are growing dimmer. Without in the least wishing to undervalue the tremendous difficulties that lie before us and the great efforts which are still essential on the part of the allies, it does not seem unreasonable to suppose that the Germans may consider the time has come to fly kites, indicating, at least, apparently, their desire for immediate peace, although they may have another motive—by this I mean a desire to intimidate neutrals that they have arrived at a reasonable attitude of mind and that the whole responsibility for the further horrors of war must rest with the allies."

ITALIANS DRIVE BACK THE ENEMY

Rome, Oct. 29, via Paris, Oct. 30, 12:30 a. m.—The official statement under date of October 29 says:
"Our troops continue with unabated energy their tenacious and successful efforts against the obstacles of the enemy's positions, undiscouraged by the bad weather.
"In the valley of Lazzarino we have conquered the last positions remaining in the enemy's possession on the Mago Nori road, that is the Monte Gelo heights of Terno Besagno Talpin.
"On upper Cordevole our forward march on the right of the torrent has progressed to the west of the steep hill of Soraruez, which was conquered on the 18th. On the left we stormed more of the field forts with which the flanks of Colonel Di Lana are covered.
"In the Monte Nero zone gradual ascents of the summit of Vodil and Mrzil are being carried on at the cost of incessant attacks, which are overcoming one of the powerful obstacles of defense.
"Our Alpine troops again yesterday conquered several strong enemy trenches, taking 279 prisoners, eight of whom were officers.
"Field forts and trenches also were stormed, first on Santa Maria height in the Piava zone, twenty-four prisoners being taken; second, on the heights of Pevona Podgora, and third, on Carso, where the total prisoners yesterday were 210, including three

officers. We also took a machine gun.
"Our aeroplanes made raids yesterday on Bainsizza and the Carso plateau, bombarding Valle Leca (Idria railroad) and the Gorizia-Triest railroad at several points and hitting enemy camps and columns on the march. Notwithstanding the violent fire of numerous anti-aerial guns, our aeroplanes returned unscathed."

ISLAND OF STANSBURY MAY BE THROWN OPEN

Salt Lake, Oct. 30.—Unless Utah, through the governor and the state land office, should file preference rights on the entire island of Stansbury in the Great Salt lake, Tootle county, within sixty days, land there will be opened to entry to any individual under the federal statutes governing homesteads and the like.

Approval of the plat of the island made by the government survey was recently given by the general land office at Washington, and the plat is now in the office of the register of the land office in Salt Lake ready to be officially filed December 8. It is understood that the state requested the survey and platting of the island with a view of taking it over.
Township plats have been received also of public lands in Iron, Washington, Beaver and Kane counties. They will be filed in the Salt Lake district land office December 9 and 10.

JAS. J. HILL MAY GET UTAH ROAD

Salt Lake, Oct. 30.—James J. Hill also had an eye on the Uinta basin, according to word that comes from there to the Commercial club in Salt Lake. Louis Hill, president of the Great Northern and Northern Pacific and chairman of the Burlington board, accompanied by C. H. Rawlings, chief engineer of the Burlington, all Hilla lines, are in the Uinta county spying out the land with a view of reporting the feasibility and practicability of building immediately into the great country.
The Hill officials came out from Denver on the Denver & Salt Lake road (Moffat line), to the terminus at Craig, then by auto over into the Uinta, through Vernal, Roosevelt, Myton and Duchesne. Their visit is regarded in Denver as significant of the probable taking over of the Moffat road by the Hill interests and pushing it through from Craig to Salt Lake.

With the Union Pacific and the Denver & Rio Grande surveyors already in the Uinta country running lines for the final location and building of branch roads, the presence of the Hill boys in that country likely means that a third independent railroad may be put through there and directly into Salt Lake. The people of Salt Lake are for a line direct from this city into the Uinta basin, and the railroad company which presents the proposition nearest to this will be favored here most, according to those who are actively interested in the movement.

BAMBERGER NOW DOUBLE TRACKING

The Salt Lake & Ogden interurban line has begun the extension of its double track from Orchard to Clinton, a distance of three miles. When the Clinton extension is completed the Salt Lake & Ogden will have double track over practically two-thirds of its line. The Clinton extension is only a preliminary step toward connecting up the double track out of Ogden and out of Salt Lake, thereby giving the road double track all the way. According to officials of the company the double track work over the remainder of the route will be pushed as rapidly as possible.
Among other improvements the company has let the contracts for the erection of two bridges, one at Hunter's cut and the other near Roy. The management is contemplating the erection of a viaduct at Lagoon to carry the public highway over the tracks, but the plans are being held in abeyance until an agreement can be reached with the town of Farmington as to the division of expense.

WOMAN IS KILLED IN AUTO ACCIDENT

Pocatello, Idaho, Oct. 29.—Mrs. Grace Gray, agent for a publishing house and originally from Portland, was instantly killed in an automobile accident near McCammon last night, when a heavy car driven by R. M. Bardeen left the road and went down a fifteen-foot embankment. Mr. Bardeen was also slightly injured, and his fireman, Iver Marsten, and another lady escaped with minor bruises. The car overturned and caught Mrs. Gray. The body has been brought here for disposal, and Mr. Bardeen is under a doctor's care at the Portneuf hotel.

WILL BUILD NEW ROAD.

Eureka, Oct. 29.—A new wagon road from Tintic to the main traveled road in Utah county is promised by Utah county officials. The road commissioner of that county was in this district Thursday and stated that there is a possibility of this work being taken up at once. This new wagon road will be built through Pinon canyon and will do away with the numerous climbs and turns over the canyon road now in use.

SHEEP KILLED IN RIO GRANDE WRECK

Richfield, Oct. 29.—A mixed north-bound train on the Denver & Rio Grande was wrecked at Central, a few miles south of Richfield, at 10 o'clock this morning. Owing to a

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Dr. J. C. Hall's Catarrh Cure acts directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in its efforts. The proprietors have so much faith in its curative powers that they offer one Hundred Dollars for any case that it fails to cure. Send for full particulars.
Address J. C. HENNEY & CO., Toledo, O.
Sold by all Druggists, 75c.

broken rail, seven freight cars left the track. Three of the wrecked cars were loaded with sheep and forty-three of the animals were killed.
None of the train crew was injured. A wrecking crew from Salt Lake reached here at 10 o'clock tonight and the work of clearing the wreck and rebuilding the track was begun. It is announced that the road will be open for regular traffic by 8 o'clock tomorrow morning.

TWO FIRES IN POCATELLO.
Pocatello, Oct. 29.—Fire partially destroyed the pumphouse of the Smith Ice company this morning. The fire is thought to have been caused by defective wiring. Fire also burned the roof off the old Oregon Short Line baggage room this evening. It is not known how the fire started. The loss is small.

AUTO JUMPS EMBANKMENT.
Payson, Oct. 29.—Wednesday night while Herman Tagge, Jr., and Dr. Jesse Ellsworth were motoring with two young ladies their car, driven by Mr. Tagge, ran off the embankment between Payson and Spring Lake, demolishing the car. The occupants escaped with slight bruises.

COLLEGE JEEP SOLO.
Logan, Oct. 29.—The college flock of sheep is being cut down and sales of excess stock were made this week to Wallace McFarland of Salt Lake, who bought eight head of purebred Cotswolds, and to F. N. Stillman, also of Salt Lake, who took twelve head of rams and ewes.

GAMBLING IS CHARGED.
Eureka, Oct. 29.—A representative of the Empire Gum company, charged with a violation of the law against gambling, will have a hearing in Judge Bromley's court on November 4th. The case was to have been tried early in the present week, but the attorney who represented the gum company stated that his client would enter a plea of not guilty. Judge Bromley allowed the case to go over until the date named above and the defendant put up a cash bond of \$100.

MONTENEGRINS WIN.
Rome, via Paris, Oct. 29, 11:35 p. m.—A dispatch to the Tribuna from Scutari, Albania, says:
"Near Vizegrad (Bosnia) the Montenegrins have stored the enemy's position near Susagora, which commands the whole region, and established themselves firmly. They inflicted heavy loss on the enemy and took many prisoners."

She—I believe she's in love with Willy!
He—Why?
She—I saw her kissing him.
He—Sapiently—Pooh! That is no proof.—Judge.
